

# MH-C808M

## THE ULTIMATE PROFESSIONAL CHARGER.

### Ultra Fast 8 Cell AA / AAA / C / D Charger!

#### SPECIFICATIONS

<b>Charge Time</b>	AA: 1 Hour (Normal), 2 Hours (Soft), C/D: 1-5 Hours (Normal), 5-10 Hours (Soft)
<b>Charge Current</b>	2000mA (AA, C, D), 700mA (AAA)
<b>Power Source</b>	Worldwide Switching AC Adapter 100-240V 50/60Hz with removable cord
<b>Supported Batteries</b>	One to Eight AA, AAA / C / D NiMH or NiCD

#### FEATURES AND BENEFITS

##### Eight Independent Charging Circuits

Charge 1 to 8 batteries in any combination.  
Charge rechargeable AA / AAA / C / D batteries.

##### Designed for Today's High Performance Batteries.

For today's ultra high capacity C & D batteries.  
Charging time for an 11,000mAh D battery is around 5 hours.

##### Back Lighted LCD Display

Displays charging and conditioning status for each battery.  
Status is described in English.

##### Simply Rugged

Uses fixed contacts, enhancing reliability.  
Heavy Duty International AC Adapter  
Worldwide compatibility: Universal auto-ranging switching adapter.  
Uses a rugged DIN power connector found only in professional products.

##### Built-in Deep Battery Conditioning System

Cycle charges, discharges and recharges batteries.  
Restores batteries to their optimal performance level.  
Reduces memory effect.

##### Selectable Soft and Rapid Charge Modes

Soft charge option for highest battery life.  
Rapid charge option for shortest charge time.

##### Precision Microprocessor

0.001V voltage detection.  
No under-charge.  
No over-charge.  
Just the right charge every time.  
Maximum battery longevity.

##### Low Temperature Charging Algorithm

The coolest rapid charger in PowerEx's line of professional products.  
Low charging temperature maximizes battery life and performance.

100% Factory Tested.  
Manufactured to the world's highest quality standards in ISO-9001 facilities.
